

WAGNER SUPERFINISH 23 CR (INJECTION)

The SuperFinish 23 CR is a powerful, compact diaphragm pump featuring the proven QLS long-stroke technology, designed to efficiently handle high-viscosity materials while delivering exceptional durability and long service life. Engineered for demanding applications, it is perfectly suited for processing polyurethane (PU), SPUR foams, and aqueous solutions, making it an ideal choice for precise and reliable concrete repair injection.

Easy to Transport:

Robust cart with height-adjustable handle

Easy to clean:

5 liters hopper for fast material changes

Pressure relief directly at the unit:

Stainless steel ball valve – especially for injection application

Fine Adjustment:

Smooth pressure regulates from 0-250 bar for all applications

Brushless Motor:

Easy to maintenance and reliable

Max Nozzle Size	0.023"
Max Delivery Rate	2.6 L/min
Operating Pressure	250 bar
Motor Output	1.3 kW
Voltage	230V
Technology	Diaphragm
Weight	37 kg
