

SUPERFINISH 23 CR GROUT WITH HOPPER

SuperFinish 23 CR Grout with Hopper is a special development for use as a pump for injection, masonry restoration, for combating moisture and water damage and for concrete restoration with epoxy, polyurethane PU, SPUR foam or aqueous solutions. The unit can be completely controlled and works reliably even in the low-pressure range.

Versatile:

Easy to use with all commercially available injection packers

Easy to Clean:

5 litres hopper for fast material changes

Easy to Transport:

Robust cart with height-adjustable handle

Brushless Motor:

Easy to maintenance and reliable

Fine Adjustment:

Smooth pressure regulates from 0-250 bar for all applications

Direct Pressure Relief:

Stainless ball valve especially for injection application

Max Nozzle Size	0.023"
Max Delivery Rate	2.6 L/min
Operating Pressure	250 bar
Motor Output	1.3 kW / 1.7 hp
Voltage	220 V / 50 Hz
Technology	Diaphragm
Weight	29 kg
